

## **NP committee response to consultation responses - 7 November 2019**

We have looked at the Reg 16 consultation responses and would like please to make the following comments.

We have noted the comments made at the Reg 16 stage and would be happy to clarify any particular points with the Examiner, although we do note that quite a few of these were covered in the consultation summary when those points were raised in the earlier consultation. For example, we are aware (in response to the late representation) that the Bottle Inn Pub has recently changed hands and is presently closed. We are presently attempting to make contact with the new owner to understand his future plans which appear to comprise a refurbishment and re-opening in the new year.

If there are any changes the Examiner considers to be necessary, we would very much welcome the opportunity to discuss the details of such changes before these are finalised, this to check that there are no unintended consequences which the Examiner might not be aware of.
